

Dear (Friend/Company),

I am so excited to tell you that on April 29th, I will be participating in Graces Race 5K benefitting The Morgan Adams Foundation's to help raise money for the fight against pediatric cancer.

Grace was a young girl with suspicious numbness in her foot. What Grace and her family thought was a pinched nerve turned out to be a brain tumor. Grace endured two different chemotherapy treatments, weekly, over the next year. Thanks to Dr. Nick Foreman's research funded by The Morgan Adams Foundation, this treatment was successful and Grace is now a normal sixteen year old, enjoying her senior year at Cherry Creek High School and will be attending Creighton University's Nursing Program in the Fall.

The Morgan Adams Foundation raises money and awareness on behalf of children affected with cancer. Working with leading physicians, they directly fund pediatric cancer research and therapies which will improve survival rates and reduce the devastating side-effects cancer treatments have on children.

I would appreciate any support you are able to give me for this worthwhile cause. Your donation directly supports The Morgan Adams Foundation, a Colorado non-profit that is on a mission to find new treatments and cures for pediatric cancer.

Since the first event in 2013, Grace's Race has raised over \$220,000 to further pediatric cancer research and save the lives of other children battling brain tumors.

You can either donate online at www.gracesrace.org or complete the form below and mail it in. Remember, your donation is tax-deductible!

Every dollar we raise together will help this cause.
Thank you in advance for supporting me and this important mission.

Yours Truly,

Please complete and mail the form below with your donation.
